

AN INDUSTRY-LEADING PORTFOLIO MANAGEMENT AND MONITORING & EVALUATION SOFTWARE TO MEASURE YOUR IMPACT TODAY

Synergy Indicata is an industry-leading strategy execution and monitoring and evaluation software that provides the complete suite of features that organizations in the public and nonprofit sectors need to collect and analyze results data, monitor their organization-wide portfolio, measure performance from the project level up to the organizational level, and assess their social impact all in one unified, cloud-based environment. We carefully adapt Synergy Indicata to the needs of each client, and we provide end-to-end implementation services to ensure our client's success.

KEY SOLUTIONS

PROJECT PORTFOLIO MANAGEMENT

Effortlessly manage all programs and projects and deliver the results on a single platform.

MONITORING AND EVALUATION

Measure the performance and achievement of your organization's strategy from planning to execution.

GRANT MANAGEMENT

Centralize grant portfolio management and improve draw-down of your funding.

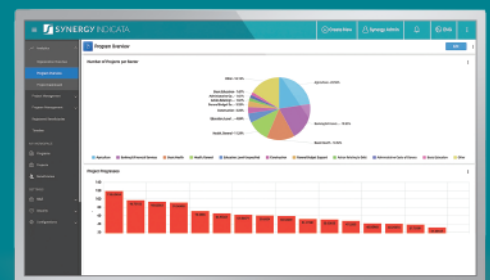

KEY FEATURES

PROJECT PORTFOLIO MANAGEMENT

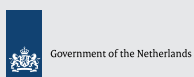

Indicata enables organizations to centralize programmatic data in one place and have a single source of truth about their portfolio of programs and projects. It also helps organizations standardize and streamline how they design, plan, budget, and implement projects.

PERFORMANCE MEASUREMENT

Indicata enables organizations to create results frameworks, define performance indicators, collect disaggregated data, and measure progress toward targets. It also enables organizations to aggregate results across projects to evaluate the achievement of organization-wide strategic objectives.

MAJOR CLIENTS AND PARTNERS

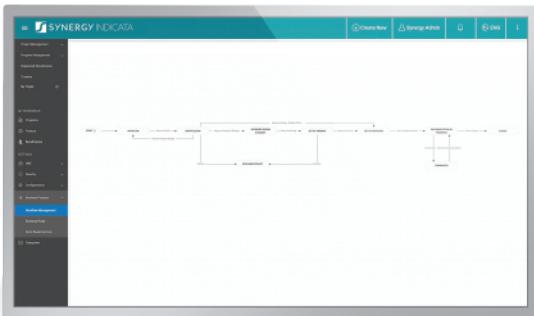

DATA VISUALIZATION AND ANALYSIS

Indicata is expressly designed to make organizational data accessible and usable. Users can easily retrieve data, generate on-demand reports, view GIS maps, and create drill-down dashboards. Users can slice and dice data and save filtered analytical views for future one-click access. They can securely share dashboards, reports, and GIS maps with external stakeholders or export them to other formats. Managers can build predefined dashboards and other analytical views for specific departments, user groups, or project teams.

DATA COLLECTION

Designed specifically for use in areas with limited or no Internet access Synergy Indicata's wide range of data entry features enable to enter data in offline mode or through smartphones and tablets.

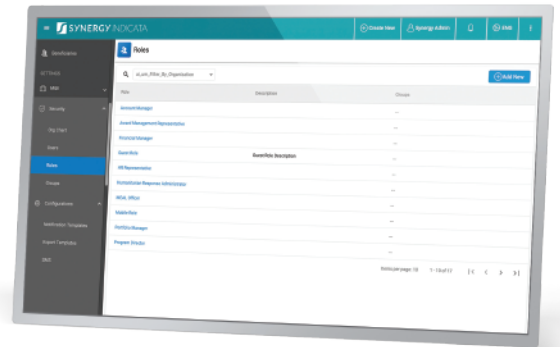

DATA AND WORKFLOW MANAGEMENT

Indicata's workflow engine enables seamless automation of an organization's data management processes, including the visualization and customization of highly complex institutional processes in an intuitive manner, facilitating automation of project management activities, such as formal approvals, data validation, monitoring of funding disbursement.

SECURITY AND USER MANAGEMENT

Indicata's role-based and attribute-based access control (RBAC and ABAC) enables an organization to create organizational roles, set role-specific permissions at the most granular level, and assign individual users to those roles. In addition, Indicata is armed with robust audit trail that can track the source of each and every access to the system, data submission, or change in the system.

INTEGRATION

An organization's Indicata-powered system can link with other enterprise systems through APIs or ETL processes to exchange data.

AWARDS
