

AN INTEGRATED PUBLIC FINANCIAL MANAGEMENT SOLUTION

Synergy PFM enables governments to manage the entire life cycle of national finance management, ranging from budget formulation and execution, and public investment management to aligning development aid to country strategies and priorities. It is composed of several modules that can be implemented individually or as part of a unified solution.

KEY SOLUTIONS

PUBLIC INVESTMENT MANAGEMENT

Modernize public investment programming (PIP), including submission, screening, prioritization and approval of project proposals, allocation, and execution of the capital budget.

BUDGETING

Create and execute top-down and bottom-up budgets. Manage the collection, analysis, and reporting of budget allocation information.

DEVELOPMENT ASSISTANCE DATABASE

Define assistance programs by sector and available funding and coordinate your development efforts based on a complete, reliable, and transparent picture of the aid landscape.

INTEGRATED STRATEGIC PLANNING

Streamline your strategic planning across all sectors, connecting the government and public organizations. Track the implementation of national, regional, and municipal strategies.

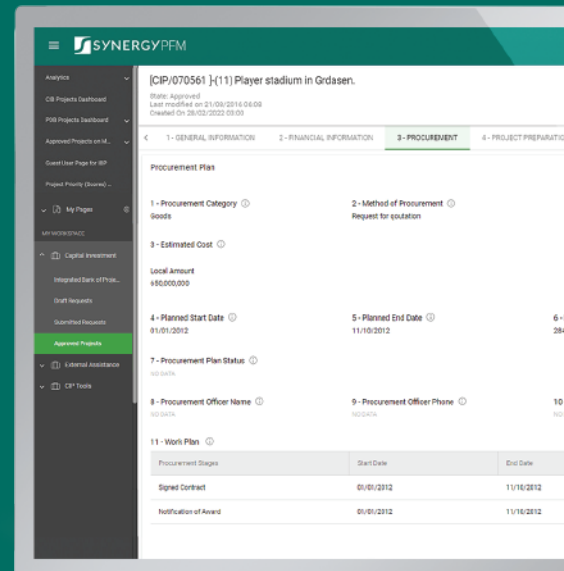

KEY FEATURES

MANAGE PROGRAM PROPOSALS AND PLANNING ONLINE

Streamline the budget preparation process by enabling line ministries to submit their public investment project proposals online. You can easily review a project proposal, add remarks, define prioritization techniques, approve or reject a project, and assign a capital budget ceiling for each ministry or government unit online.

TRACK PIP PROGRESS AND BUDGET EXECUTION

Track detailed data on public investment projects, including financial, project progress, monitoring and evaluation data. Monitor the budget execution process in real-time, tracking when fund requests are submitted when funds are released, and how much progress was achieved.

MAJOR CLIENTS AND PARTNERS

STREAMLINE BUDGET PLANNING AND EXECUTION

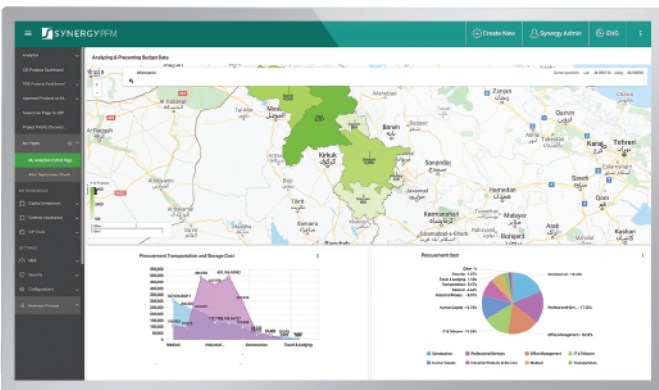

Plan and monitor the budget execution effectively, including registering allotments, registering new requests, and transferring funds. Synergy's budgeting solution can be integrated with financial management information systems (FMIS) for the exchange of accounting data and payment information.

PROMOTE NATIONAL DEVELOPMENT STRATEGIES

Align the development aid with national strategies, allowing government agencies and development partners to maintain a common strategic focus. Synergy DAD is aligned with the internationally recognized principles and global best practices in aid management such as the Paris Declaration, UN SDGs, Accra Agenda for Action, Global Partnership for Effective Cooperation, etc. It is fully compatible with International Aid Transparency Initiative (IATI) format and has an XML interface for easy export of DAD data into IATI format.

IMPLEMENT RESULTS-BASED MONITORING AND EVALUATION

Take advantage of the integrated impact assessment tools to measure results and compare them with baselines and targets. Automate data collection, reporting and analysis enhancing program performance evaluations/reviews.

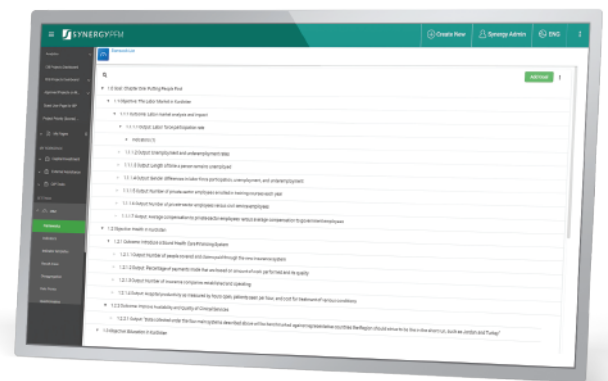

ANALYZE AND VISUALIZE DATA AND GENERATE REPORTS

Analyze gaps, overlaps and alignment of programs with national priorities and development plans. Create pre-defined and custom reports and charts regarding project progress, budget execution, performance M&E and more at the click of a button. The graphs and geospatial maps make it easy to visualize performance data, key indicators, and critical trends.

INTEGRATE WITH OTHER SYSTEMS

Synergy PFM solutions can be scaled fast and complement existing processes to deliver value. The underlying interoperability capability supports data exchange with relevant government MIS to ensure an effective flow of information and prevent duplication and silos of information.

SYNERGY PFM at a Glance

- Program proposals management and online planning
- PIP progress tracking and budget execution
- Strategy design and execution
- Results-based monitoring and evaluation
- Reporting and data visualization
- Budget planning and execution
- Budget data analysis and reporting
- API gateway and integrations
- Import/export capabilities
- Audit trail
- Role-based access

ABOUT SYNERGY

Synergy International Systems, Inc. ("Synergy") is a software development and consulting tech company built on hard work, dedication, and a commitment to excellence. Founded in 1997, we have worked in more than 80 countries to help organizations & governments to become more data driven. We are a privately held, 300+ person company headquartered in the Washington, D.C. metro area, with a Development and Global Learning Center in Yerevan, Armenia. We also maintain an office in Hague, Netherlands to accommodate rapid growth in EU by leveraging the area's excellent infrastructure and proximity to EU institutions and Kigali, Rwanda. We are certified ISO 9001 for quality management and ISO 27001 for information security management.
